

## Three-in-one rake

An indispensable tool for levelling and shaping landscaped areas, or spreading and levelling soil. Also eminent for levelling base gravel and depositing sand ready for paving. The three different functions make the rake eminently versatile.

A good investment saving time, money, and energy.

Suitable for compact excavators weighing max. 2 tons

Choice of fixtures (to order)

Danish quality

Worthwhile investment

### Technical specifications:

Width 150cm

No. of teeth 24

Weight 45 kg.
